

FLEXBIMEC presents **NOVATG**[®], the hose guide for the orderly rewinding of the hose on the reel drum.

- Optimization of spaces during hose rewinding which assures a longer service life.
- Can also be assembled later on the new predisposed ANDROMEDA and ORION models (SG).
- Protects the operator in case of accidental releases.
- A single hose guide model for all hose diameters from Ø 1/4" to Ø 1".
- As standard it is supplied in AISI 304 stainless steel, on request in AISI 316.

The hose guide is **BELT DRIVE**, allowing for an orderly rewinding of the hose.

CHAIN DRIVE available on request.

To position the hose, simply unfasten the screws (A) to configure the hose guide to accommodate 1/4" - 1/2" hoses or 3/4" - 1" hoses.

For positioning the hose guide just unfasten the screw (B) to release the front panel from the constraint of threaded pin and rotate the mother bolt in the desired position.

The hose guide is supplied in the above position and already configured to follow the correct direction on first use.

The new **ANDROMEDA** hose reel line has been designed focussing on improving the technical aspects of our previous models. The completely renewed modular design allows for vast choice of models and **adds the HOVA[®]G automatic hose guide** that allows for the orderly rewinding of the hose.

It can also be integrated later with the hydraulic **HB** brake kit inserted directly on the guide arm (see image C below), which safely controls the reel rewind speed.

3 VERSIONS AVAILABLE

- Painted steel;
- Aisi 304;
- Aisi 316

Greater security for the operator thanks to location of the spring "C" within the group disc/drum "B2"

LEGEND

- A **HOVA[®]G** hose guide
- B1 Hose exit side disc/drum assembly
- B2 Spring side disc/drum assembly
- C Spring
- D1 Swivel side base arm
- D2 Spring side base arm
- E Swivel joint
- F Drive
- G Guide arm cover
- H HB hydraulic brake

HYDRAULIC BRAKE KIT HB REWIND CONTROL

OPTIONAL

HB Spring brake hydraulic kit / PATENTED
Safety device for a controlled rewinding of the hose.
Restrains the hose in case of accidental releases, lowering risks for the operator.
Patent no. 0001426967

*) The reels in painted steel are equipped with mineral oil compatible swivel joint gaskets. The hose reels in stainless steel come with water-compatible Viton® swivel joint gaskets. See pages 263-265 for the complete range of swivel joints with gaskets compatible with other liquids.

**) When ordering, specify whether or not the application implies the use of low pressure hoses (see page 266 regarding the splitting of the roller).
